

# So Afraid

Bebo Norman

Take my heart, and wring it out  
In your hands and watch it all collapse  
Take your love, and drive it in  
Into my soul, and never leave again

Cause I am so afraid  
That I'll find myself alone  
Looking for a savior, looking for a home  
I am so afraid  
That I'll find myself alone  
Lookin for a savior, lookin for a home

So don't leave me here alone  
Don't leave me here alone

All your hope, and all my pride  
All this time to watch it all collide  
When everyone seems to say,  
â??You can work it outâ??  
Under my skin, I'm shaking  
And I can't get out

Cause I am so afraid  
That I'll find myself alone  
Looking for a savior, looking for a home  
I am so afraid  
That I'll find myself alone  
Lookin for a savior, lookin for a home

So don't leave me here

This is not what you said  
It's all in my head  
When I throw my anger at you instead  
So don't give up on me  
I want to believe  
That you'll never leave me

But I am so afraid  
That I'll find myself alone  
Lookin for a savior, lookin for a home  
I am so afraid  
That I'll find myself alone  
Deep into the ages, deep into the foam  
I am so afraid  
That I'll find myself alone  
Lookin for a savior, lookin for a home

So don't leave me here alone  
Don't leave me here alone
