

World Gone Dark

Bebo Norman

Fall like fire from the sky
As I walk the wire of a borrowed life
In a world gone dark, in a world gone dark
I wanna feel a spark

I'm gonna lay my laboring open wide
Take this bird of burden, set it free and let it fly
Cause in a world gone dark, in a world gone dark
I'm wanna feel a spark

I've been reaching for something
I keep reaching for something for my heart
That keeps bringing me nothing
It's all been bringing me nothing from the start
Oh my heart

The beauty of an empty soul
There's nothing left but letting go

Fall like fire from the sky
It's gonna fill the empty full of brilliant light
In a world gone dark, in a world gone dark
You let me feel a spark
In a world gone dark, in a world gone dark
You let me feel a spark

The beauty of an empty soul
There's nothing left but letting go
