

In Between

Becca

You come over Don't talk
Turn the T.V. on, off
Disconnected Unaffected
Better take the call

Showed you pictures of my home town
A pin could drop from miles down
What's the use in trying to be a girlfriend
When we know just what we are

There's nothin' in common
Except the bed we lay on

I won't be caught between something and nothing
When you know that nothing is for free
Cause in the end it's me who pulls the covers
And it's empty in between

You're a habit I can't break
Disaster to eliminate
What part of no do I not understand
When you're not good for me

Cause I know we will never
Be some kind of forever

I won't be caught between something and nothing
When you know that nothing is for free
Cause in the end it's me who pulls the covers
And it's empty in between
I'm the girl who needs it all or nothing
How did we become a one night stand
Hanging on a thread just isn't something
That I want in the end

You come over yeah it's over
Now we know just what we are

I won't be caught between something and nothing
When you know that nothing is for free
Cause in the end it's me who pulls the covers
And it's empty in between
I'm the girl who needs it all or nothing
How did we become a one night stand
Hanging on a thread just isn't something
That I want in the end
