```
You make me feel more and more
You make me feel like loving you
You make me feel more and more
You make me feel like loving you
You make me feel like loving you
More and more
Don't stop move on come get my love
Don't stop be strong can't get enough
Don't stop believe you're all that I need
Don't stop your love its the air that I breath
Don't stop move on come get my love
Don't stop be strong can't get enough
Don't stop believe you're all that I need
Cause you free my mind you take me
To a higher level baby
And you fill my world with joy and light
In your arms it feels so right
You make me feel more and more
You make me feel like loving you
You make me feel more and more
You make me feel like loving you
More and more (4x)
Don't stop move on come get my love
Don't stop be strong can't get enough
Don't stop believe you're all that I need
Cause you free my mind you take me
To a higher level baby
And you fill my world with joy and light
In your arms it feels so right
You make me feel more and more
You make me feel like loving you
You make me feel more and more
You make me feel like loving you
More and more (2x)
You make me feel (3x)
More and more
You make me feel more and more
You make me feel like loving you
More and more (2x)
```
