

Dark Places

Beck

Time moves on and on
Love it goes
Now she's gone and I
Foresee the shadows

It's two in the morning
I'm so in the moment
It's two in the morning
I'm so in the moment, oh yeah

Some days
I go
Dark places
On my own
Some days
I go
Dark places
In my soul

Come and see me
Do you need me?
Hiding deeply
In the feeling
Been so lonely
So unholy
Make me feel for you
Come and let me down slow

There's a place
In this world
For you and I
You and I
You and I
Hold your head up
Golden girl
You and I
You and I
Until the day we die

Golden on, and on, and on
Golden on, and on, and on
Golden on, and on, and on
It's you and I, and you, and I
Golden on, and on, and on
Golden on, and on, and on
Golden on, and on, and on
It's you and I, and you, and I
