

Me First

Beckah Shae

My house of glass,
you see through every wall I've built.
Don't tell,
Don't ask.
I never thought anybody could love me,
with all my flaws revealed.
But you had something different in mind for me,
way before we would ever meet.
You knew I'd run from you call,
'til I'd run out of road.
And I'd turn from your voice,
then I'd leave you standin' out in the cold
You knew the very moment I would give my life.
Never said "I told you so" when you were right.
Loved me even when it hurts,
that's how I know that you loved me first.
My heart, your hand.
You touch me when no one else can.
Leave now, don't chance.
My life without you makes no sense,
so I'm N-N-Never doin' that again.
But you had something different in mind for me,
way before we would ever meet.
You knew I'd run from you call,
'til I'd run out of road.
And I'd turn from your voice,
then I'd leave you standin' out in the cold
You knew the very moment I would give my life,
Never said "I told you so" when you were right.
Loved me even when it hurts,
that's how I know that you loved me first.
Only love yeah only only your love.
Your love keeps me alive and I,
have no fear because you're perfectly here forever (ever)
Only love yeah only only your love.
Your love keeps me alive and I,
have no fear because you're perfectly here forever (ever)
You knew I'd run from you call,
'til I'd run out of road.
And I'd turn from your voice,
then I'd leave you standin' out in the cold
You knew the very moment I would give my life,
Never said "I told you so" when you were right.
Loved me even when it hurts,
that's how I know that you loved me first
