

# Indestructible

Becky Hill

How did we end up here?  
Look at how far we've come  
We're not getting any younger  
I don't know how to feel  
But I know I'm not on my own  
'Cause together we are stronger

Now we are at different stages  
And we can feel we're going through changes  
Everybody has to face it  
I can't do this alone

'Cause we can stand together  
We won't crumble under pressure  
Make these moments last forever  
'Cause we're indestructible  
We can stand together  
I'll be here for you whenever  
You need someone to remember  
That you're indestructible  
That you're indestructible  
That you're indestructible

The memories through the years  
Life has been good to us  
But we're not getting any younger  
We gotta face our fears  
And as long as we've got love  
Then we're only getting stronger

Now we are at different stages  
And we can feel we're going through changes  
Everybody has to face it  
I can't do this alone

'Cause we can stand together  
We won't crumble under pressure  
Make these moments last forever  
'Cause we're indestructible  
We can stand together  
I'll be here for you whenever  
You need someone to remember  
That you're indestructible  
That you're indestructible  
That you're indestructible
