

## Better Weather

Beddy Rays

Thinkin' am I gonna go out?  
Cause I've been spending too much time in my head  
Rolling doubts around my mind  
Rolling out of bed

Thinkin' back on good times spent  
Misplaced my spring to my step  
Find me sitting on the fence  
To stay in or to get bent?

I don't really wanna lie this time  
But I know I'll get better  
It's a pretty shit day outside  
But it's perfect weather

I've been thinkin' lately  
Been thinkin' just last night  
I've been thinkin' too much  
At least I think that's right

Reminisce on good times spent  
Misplaced my spring to my step  
Find me sitting on the fence  
To stay in or to get bent?

I don't really wanna lie this time  
But I know I'll get better  
It's a pretty shit day outside  
But it's perfect weather

I know I'll find the time and I'll get better  
These days you come around depending whether  
You're sold  
Or find it in your soul  
Or you need more time to grow  
Guess I'll know in time when things get better

(I don't really wanna lie this time)  
I know in time that things get better  
(I don't really wanna lie this time)  
I know in time that things get better  
(I don't really wanna lie this time)  
I know in time that things get better  
(I don't really wanna lie this time)  
Things get better
