

Bloodhound

Beddy Rays

I'm always running so I never get left behind
My thoughts escape
But they come around to remind

My head is spinning
And ticking backwards again
You know I'm leaving
I know you'll see me again
I'm always running so I never get left behind

Hey there bloodhound
Can you settle down?
You're ripping into my heart
You've been hanging on too long
Pulling me down leaving marks

I'm always running so I never get left behind
Your teeth sunk in
I couldn't get away if I tried

My head is spinning
And ticking backwards again
You know I'm leaving
I know I'll see you again
I'm always running so I never get left behind

We don't need this pressure
Cause it's killing us more than ever
Hey there bloodhound
Can we go back to the start?

Have I lost my mind?
Am I just a kid inside?
I don't wanna be around
Wanna be around
