

Coming Home

Beddy Rays

Feeling far from home
I want a place to call my own
That's where I wanna be...
That's where I've always wanted to be

So take me far from here
Somewhere where my mind can clear
Anywhere and I'll be there

I'll tell my friends I'm coming home
I threw it all in I won't be too long
Cause I've figured out how
I won't fall back down
I'll tell my friends I'm coming home

Let's get away from here
We wanna shift on through the gears
Cause that's where we wanna be
That's where we've always wanted to be

So take us far from here
Somewhere where our minds can clear
Anywhere and we'll be there

I'll tell my friends I'm coming home
I threw it all in I won't be too long
Cause I've figured out how
I won't fall back down
I'll tell my friends I'm coming home

I'll tell my friends I'm coming home
I threw it all in I won't be too long
Cause I've figured out how
I won't fall back down
I'll tell my friends I'm coming home
