

Fool Around

Beddy Rays

I saw a hole in the fence
Just follow me right in
I know that you've got it inside you
Then your face went red
As I tumbled in a ditch
Run and just don't look behind you

When they saw us roll in
Our hearts were thumping
We knew we didn't have much time
But when we rolled out
There was no doubt
We'd made it to the other side

She said
I'm glad
I came along with you
I'm doing all the things I never do
When I'm fooling around with you

Came across the tents
And Macca's pouring drinks
Where we'll go to sleep in the morning
Say we see the bands
And we make the most of this
We come up without any warning

She said
I'm glad
I came along with you
I'm doing all the things I never do
When I'm fooling around with you

She said
I'm glad
I came along with you
I'm doing all the things I never do
When I'm fooling around with you

Remember when we stayed
No matter how hard it rained
Could it of been any colder?
I love it how we stayed
No matter how hard it rained
Leaving your warmth on my shoulders

She said
I'm glad
I came along with you
I'm doing all the things I never do
When I'm fooling around with you

She said
I'm glad
I came along with you
I'm doing all the things I never do
When I'm fooling around with you
