

FOTU

Buddy Rays

Throw me out, take me in
By the way, how ya been?
I don't really know
If I should stay or I go?
Snap out of it, take it in
Look around, roll with it
I know how it goes
I'm not going home, I'm not going home
I don't want to fear the unknown

No one can walk away
Feeling it gets better
Better if you stay
Now no one's counting on me (I know now)
I'm not going home
I'm not going home
I don't wanna fear the unknown

Bored and bound, it's my round
Negative bank account
I know I should go
Friends always keep me afloat
Round the town, up and down
Ramble till the sun is out
We know how it goes
We're not coming home
We're not coming home
We don't wanna fear the unknown

No one can walk away
Feeling it gets better
Better if you stay
Now no one's counting on me (I know now)
I'm not going home
I'm not going home
I don't wanna fear the unknown

No one can walk away
Feeling it gets better
Better if you stay
Now no one's counting on me (I know now)
I'm not going home
I'm not going home
I don't wanna fear the unknown
