

Kicked

Beddy Rays

Go for a walk outside
I clear my head and stare at nothing
And as they all walk by
I tell myself it's all for something

Maybe I went wrong in more ways than one
I'm still tryna figure it out
Sing another song get my head screwed on
Tight enough to cut you out

You kicked me down but I'm still kicking
I saw you round but I was tripping
Take back what I said
Get out of my head

As it rains outside
Stay in bed and stare at nothing
I'm looking at a black ceiling again
Time is killing time
And I don't wanna be on her side
But I know she needs a friend
And I'll be there...

I've taken longest road
Cause I don't wanna go back home
Not just yet...
I've taken longest road
Cause I don't wanna go back home
Not just yet...

You kicked me down but I'm still kicking
I saw you round but I was tripping
Take back what I said
Get out of my head
Of my head...

Go for a walk outside
I clear my head and stare at nothing
And as they all walk by
I tell myself it's all for something

Maybe I went wrong in more ways than one
I'm still tryna figure it out
Sing another song get my head screwed on
Tight enough to cut you out
