

Silverline

Beddy Rays

Have I been taking care of myself?
Since we gave it a miss
I've been getting used to it
But I can't help the way that it felt
And it makes us feel like shit
Talking regularly like this

Take time, work out your worries
I'll be just fine if I say that I'm sorry
Maybe time will find my head
I understand now when you said

Don't miss me, that's not the deal
Don't miss me only when you feel
I've been trying to
Find the silver line in you
In you

Have I been taking care of myself?
When we're still calling up
And it's only when we're drunk
I think you're as lost as me
We don't know what we want
And we don't know what that means

Take time, work out your worries
I'll be just fine if I say that I'm sorry
Maybe time will find my head
I understand now when you said

Don't miss me, that's not the deal
Don't miss me only when you feel
I've been trying to
Find the silver line in you

It's been going on too long
False hope, I believed it
You just carry on so long
I thought you were leaving

Now all I want is the feeling gone
And I know there's things your mind plays on
If you'd just for once not think so much
I'm easy man, I'm in no rush

Don't miss me, that's not the deal
Don't miss me only when you feel
