

# Stay The Same

Beddy Rays

I can't escape my mind sometimes  
I never want to be there  
I want to walk the wire sometimes  
Until I take a look down

Stay the same  
Stay the same

I think I'm back on top  
Until I have another breakdown  
It hurts and breaks my heart  
To know you'll never be around

Stay the same  
Stay the same  
Stay the same  
Stay the same  
I don't want you to ever change

I can't escape my mind sometimes  
I never want to be there  
Your heart pours into mine and I  
Will always have a room spare

Stay the same  
Stay the same  
Stay the same  
Stay the same  
I don't want you to ever change

I know when my head starts spinning  
I've finally lost control  
I'll fold at the breaking point  
Can't wait now til I can get back home  
I know when my head gets heavy  
I've finally lost control  
Let go at the breaking point  
Time will tell if it'll stay or fade  
All I want's for you to stay the same

Stay the same  
Stay the same  
I don't want you to ever change

Stay the same  
Stay the same  
I don't want you to ever change

Stay the same  
Stay the same  
Stay the same  
I don't want you to ever change

Stay the same  
Stay the same  
Stay the same  
I don't want you to ever change
