

# Too Much (Is Too Much)

**Buddy Rays**

What's the best time of day  
To consider or throw it away?  
Don't wanna ruin what we could save  
When our hearts won't feel this way

I'm having fun drinking at parties  
And pissin' on, talkin' for hours  
With laughed out lungs  
Okay, maybe we're growing  
But I'm never leaving without ever knowing

When I'm done  
To pull out of this  
Too much fun  
To sit down on this  
See the sun  
Come around again  
When too much is too much

What's another point of view?  
Situations I'm thrown into  
Living to work's not worth the pain  
Won't ever live my life that way

I'm having fun drinking at parties  
And pissin' on, talkin' for hours  
With laughed out lungs  
Okay, maybe we're growing  
But I'm never leaving without ever knowing

When I'm done  
To pull out of this  
Too much fun  
To sit down on this  
See the sun  
Come around again  
When too much is too much

It's no fun feeling resistance  
And you can't run  
Thinking of outcomes before we're done  
Okay, maybe we're growing  
But I'm never leaving without ever knowing

When I'm done  
To pull out of this  
Too much fun  
To sit down on this  
See the sun  
Come around again  
When too much is too much  
When I'm done  
To pull out of this  
Too much fun  
To sit down on this  
See the sun  
Come around again

When too much is too much
