

## Sunshine Sometimes

Bedouine

I don't need to stay out  
Hanging with the gang at all hours  
If I had your love  
That'd be enough, wildflower

Don't always feel like throwing back  
I'd like a quiet night with you inside without catching flak

It's alright if we put out a light  
It's not sunshine sometimes, you're still on my mind  
If you change this you'll know where to find me  
Lazy, baby, but I'd still like to see you tonight

Wonder where you been  
I been staying in, but it's hard  
Don't have much to say  
I just trade the day for the dark

Don't always feel like throwing back  
I'd like a quiet night with you inside without catching flak

It's alright if we put out a light  
It's not sunshine sometimes, you're still on my mind  
If you change this you'll know where to find me  
Lazy, baby, but I'd still like to see you tonight

Even if we're just at home  
It's nice to get you alone  
And if we're entertaining  
Sure, it may be time  
It's not the same

It's alright if we put out a light  
It's not sunshine sometimes, you're still on my mind  
If you change this you'll know where to find me  
Lazy, baby, but I'd still like to see you tonight
