

# Flesh and Blood

Bee Gees

I'm not that someone who's got what you want  
I can do nothing but watch what you do  
You just want someone to kiss you good night  
But lips are never enough to get you through

You stole my nights and you got your way  
And now you got me dying inside, oh baby

Ebony, don't walk out on me, listen to what I say  
Pick up the pieces of my life into the night of day  
How do you break this heart of steel, nobody ever could  
Open the pages of my life, I'm only flesh and blood

I'll be your savior but baby I swear  
I'm not living my life over you  
Some satisfaction you get if you dare  
But is it ever enough to get you through?

You stole my mind and you watch me fall  
Now you leave the scene of the crime, oh no

Ebony, don't walk out on me, I never thought you could  
I'm only what you make of me, I'm only flesh and blood  
I'm only flesh and blood

When you're gone, you'll leave me behind  
... with nothing to hide  
Oh, lost in the night in a town without pity  
You learn how to cry, you learn how to cry

Ebony, don't walk out on me, listen to what I say  
Pick up the pieces of my life into the night of day  
How do you break this heart of steel, nobody ever could  
Open the pages of my life, I'm only flesh and blood

Gone are the days that came and went  
Houses are made of wood  
Live in a world of sand and stone  
I'm only flesh and blood

Ebony, don't walk out on me, I never thought you could  
I'm only what you make of me, I'm only flesh and blood
