

Tragedy

Before I Turn

"Please make yourself aware of the safety exits around you
They'll be closed off during the duration of the performance
Set in Danvers lunatic asylum...
Set in Verona our story commences
A tale of love forlorn
Nobody will be loved
Nobody will be saved
Nobody will be missed
A tale of forlorn tragedy
(This is lovelorn) "

Silence and refrain
Are the only way to tame
A dull ferocity
That evokes some poetry
That impedes on my anxiety
And as the oceans spray
It ebbs upon a dune of hope
That soon we'll wash away

My love soon will die upon a throne
Of repentance and a sentence of eternity alone

Moonlight hits your skin
As our souls detach within
A solemn fantasy that evolves to tragedy
Our loves succumbs to atrophy
And as I look away
I feel as though my hope is lost
My dear I'm longing to say

My love soon will die upon a throne
Of repentance and a sentence of eternity alone
Take my soul sweet shallowing embrace
An eternity of tragedy to face
