

## The Weight

### Before the Dawn

Days grow darker without fail  
Misfortunes and defeats prevail  
Bare hours crawl  
For what it's worth I am still here

The dawn comes without a promise  
A less of weight to convey  
With a broken oath of absolution  
Commitment to grant deliverance

Coldness of the conscious hours  
Absence of comfort vacant of warmth  
Unbreakable is the silence  
For what it's worth I am still here

The dawn comes without a promise  
A less of weight to convey  
With a broken oath of absolution  
Commitment to grant deliverance

The dawn comes without a promise  
A less of weight to convey  
With a broken oath of absolution  
Commitment to grant deliverance
