

Just a game

Before the zero day

Watching from the highest rooftop
great emptiness in front of me
see only black clouds
which cover our history

You play with me (you play with me)
you can tell me what you want (what you want)
Throw me away (throw me again)
and take me back (take me back)
take me back, take me back

Now I realized, it was just a game,
it was just a game Where I was a pawn
Game where I ment nothing to you, to you
Game Where I was a pawn
Game where I ment nothing to you, to you

You play with me (you play with me)
you can tell me what you want (what you want)
Throw me away (throw me again)
and take me back (take me back)
take me back, take me back
take me back, take me back
take me back, take me, take me back, take me

You play with me
you can tell me what you want
Throw me away (throw me again)
and take me back, take me back

You play with me (you play with me)
you can tell me what you want (what you want)
Throw me away (throw me again)
and take me back (take me back)
