

All Around The Planet

beFour

Yesterday's the past
What counts is our tomorrow
Yes we make it last
And there will be no sorrow
I promise you
That you will make it, too
All around the planet earth
There's a place where boy meets girl tonight
Let's get it started on by one
All around the planet earth
Up to us we'll make it work tonight
Don't let us be parted, we feel strong
Sometimes when it's dark
Then you can turn the lights on
And in every heart
Loneliness will be gone
Get ready now
Yes, you'll make it somehow
All around the planet earth
There's a place where boy meets girl tonight
Let's get it started on by one
All around the planet earth
Up to us we'll make it work tonight
Don't let us be parted, we feel strong
