Behemoth

Let's raise this chalice of shattered hopes
Full of ill-starred, poisoned wine
Let's raise a grail and drink to him—
To Lucifer!
His light, sublime

If I am God
Everyone is
If I am God
If I am not
None exists!

Let's drink for the tears he's shed—
He who wears not an angel's shame
Let's raise a grail and drink to him—
To freedom's father!
The lamb's disdain

If I am God
Everyone is
If I am God
If I am not
None exists!

If I am God

Let's toast he of the impaling horns
Who bears the naked truth of stars—
An umbra free of mortal coil
To Baphomet!
King of Antioch!

Let's drink to him, the morning sun
Beyond providence, beholden to none!

Lord
Lord of Tophet
Lord of Gehinnom
To Lucifer!
Whence aurora shone!

If I am God
Everyone is
If I am God
If I am not
None exists!

If I am God
Everyone is
If I am God
If I am not
None exists!

If I am God
