

## Shadows Ov Ea Cast Upon Golgotha

Behemoth

Am I the only one who beholding the sunrise?  
In the ganglion ov deathless nights?  
Drought I became, for all those at the bottom  
As I shed lion's skin off my back  
Into dismal deserts I crawl  
To sustain my pilgrimage on Earth  
Within your blood I submerge, my Lord  
Within your blood I am drenched

Aether above  
Black Earth below  
Waters surround  
Aether above  
Black Earth below  
Waters surround  
Fire flows inwards

No words can voice the poetry ov my wrath  
No foe dares to challenge my fury  
My legions crushed, yet they speak my names  
A pale halo casting shades ov disgrace  
With blood ov the lamb I shall seal this pact  
Amidst the sun and the moon  
I am the spear ov Longinus  
I am the arrows ov doom

Aether above  
Black Earth below  
Waters around  
Aether above  
Black Earth below  
Waters around  
Ea turns inwards

Aether above  
Black Earth below  
Waters around  
Aether above  
Black Earth below  
Waters around  
Ea turns inwards
