

# Don't Stop

Bei Maejor

We just hope the party don't stop  
We just hope the party don't stop  
We just hope the party don't stop

7 hours in, let the party begin  
Don't care how much I spend, cause it's very few I call friends  
4 bottles of Patron, 4 bottles of Rose,  
Call the waitress, where she at, we need more Patron and Rose  
Bottles to the sky, hands to the ceiling  
Tell my haters wassup, we've been gone for a minute  
Now we back up in the building  
Hey, back up in this building  
Every single time, we be shutting it down, and you know  
Hey, I told you we would kill it  
Now we back up in this building

We just hope the party don't stop  
We just hope the party don't stop  
We just hope the party don't stop  
We just hope the party don't stop

Last night was our strobe lights  
Atmosphere was set so right  
Champagne click all night, say goodbye to your old life  
11 hours in, let the party begin  
Don't care how much I spend, cause it's very few I call friends  
Bottles to the sky, hands to the ceiling  
Tell my haters wassup, we've been gone for a minute  
Now we back up in the building  
Hey, back up in this building  
Every single time, we be shutting it down, and you know  
Hey, I told you we would kill it  
Now we back up in this building

We just hope the party don't stop  
We just hope the party don't stop  
We just hope the party don't stop  
We just hope the party don't stop  
Let's hope the party don't

Party popping, bodies rocking  
Shawty over there lolippoping  
I put it too deep she lolligagging  
It's people smashing it's party cracking  
Pulled up in that black truck, my nigga keep calling that party wagon  
She put up in that old Benz, I tell her don't bring your old friends  
My nigga Cole told me that they look like hers  
All my white friends say they look like hers  
We need more cause it look like hers, little pretty face  
And a whole lot of curves  
And I make her mine, don't it feel good when I beak it down  
I am kinda faded I hate to lie  
But being half wasted is a waste of time  
So keep [?]

Bottles to the sky, hands to the ceiling  
Tell my haters wassup, we've been gone for a minute

Now we back up in the building  
Hey, back up in this building  
Every single time, we be shutting it down, and you know  
Hey, I told you we would kill it  
Now we back up in this building

We just hope the party don't stop  
We just hope the party don't stop  
We just hope the party don't stop  
We just hope the party don't stop.
