

## Caspian Tiger

Beirut

Kept outside these city walls  
The tiger sang to me  
From the wreckage of eternity  
To his Caspian Sea

To fight is holy  
But to starve is free  
I am misery  
For one moment in this hellish ring  
I lock your eyes and see

You're also dying  
You're also safe  
You're also dying  
You're also safe

You're awful shiny  
And I'm awful vague  
You're so together  
And I'm known to beg  
For one moment won't you lie with me  
I'm in the rain  
For one moment it's the last I swear  
I feel your pain

You're also dying  
You're also safe  
You're also dying  
You're also safe
