

Light in the Atoll

Beirut

I found a light in the atoll
We were airborne, I suppose
Something was moving the ice and the rest of the city
By all means I must remain still till they've come here to get
me
Light in the atoll and I am done
Light in the atoll and raise the ground

Oh, I found a light in the atoll
We were airborne, I am told
With this one we'll cut through the ice and the rest of the city
By all means I must remain still till they've come here to get
me
Light in the atoll and I am done
Light in the atoll and I am burned
