

We Never Lived Here

Beirut

We never lived here at all
Never saw what they saw
And how she said it's strange when you call
We never lived here at all
Owned a coat in these halls
I came and went through shades closed to all

We never lived here at all
Though I stand somehow tall
They drown, we swim
They split and part

We never lived here at all
Never saw what they saw
And how she said it's so strange when you call
