## We Never Lived Here

## **Beirut**

We never lived here at all
Never saw what they saw
And how she said it's strange when you call
We never lived here at all
Owned a coat in these halls
I came and went through shades closed to all

We never lived here at all Though I stand somehow tall They drown, we swim They split and part

We never lived here at all Never saw what they saw And how she said it's so strange when you call
