

# Forever

BEKA

If I could wrap you up in promises, I would  
Forever

If I could save you from a heartbreak then I would  
Forever

If I could send a thousand stars, I would  
No, we won't have forever  
But forever's how long you'll be loved

It started with promises  
And then became the years  
And followed by the way you said you'd love me, you'd love me  
Oh, wider than my fears

Did you know how loved you are, oh oh  
Did you know how loved you are, oh oh

If I could wrap you up in promises, I would  
Forever  
If I could save you from a heartbreak then I would  
Forever

If I could send a thousand stars, I would  
No, we won't have forever  
But forever's how long you'll be loved  
But forever's how long you'll be loved

Then it got scarier  
To let you in  
It got so damn scary to  
Trust you with our healing

If I could wrap you up in promises, I would  
Forever  
If I could save you from a heartbreak then I would  
Forever

If I could you send a thousand stars, I would  
No, we won't have forever  
But forever's how long you'll be loved

Did you know how loved you are, oh  
Did you know how loved you are, oh  
(But forever's how long you'll be loved)  
Did you know how loved you are, oh  
Did you know how loved you are
