

If It's Not With You

BEKA

I know clouds never pour when I'm with you
I think stars only fall when they hear you're blue
I promised to stay, I'll never break that
Love you the same, always through changes
So why do I feel strange?

What if we slip out of time?
We'll never slip out of time
How will we fall back in line?
I will never leave you, darling
I'll love you till the day I die
You know I'll love you always
And longer, oh, I can but try
I can't say we'll always have the love from chapter one
But I won't turn the page
If it's not with you

Love don't know how to love, like I love you
Remember we danced in the dark, palm to palm, everything felt new
But lights on the floor, I saw your flaws then
Learned to adore every pore
So, why do you feel strange?

What if we slip out of time?
We'll never slip out of time
How will we fall back in line?
I will never leave you, darling
I'll love you till the day I die
You know I'll love you always
And longer, oh, I can but try
I can't say we'll always have the love from chapter one
But I won't turn the page
If it's not with you

No, no, no, no
If it's not with you
I won't turn
If it's not with you, no
I won't turn the page without you
No, no, no, no
If it's not with you, yeah, oh
You, ooh
If it's not with you
No, no, no, la-la-la
If it's not, if it's not with you
