

Ride

BEKA

I remember the first time you said that I could ride up front
You were slamming round the corner, shouting "shall we have some fun?"

Never cared when we broke down
Or when I knew that we were lost 'cause I was with you

Getting to know you, feels like getting to know me
If I lose you, do I lose me, I'm tryna say that I miss you
Oh, I miss you

But you would always say
As long as the heart remembers
As long as the seasons change
Driving on your longest journey
I'll ride up front with you
I'll ride up front with you

Some days we drove in horse drawn carriages like royalty
Pretending we weren't cruising in your Ford Fiesta dream
Leaving tyre marks like memories at the feet of every scene
Oh, it breaks me

Getting to know you, feels like getting to know me
If I lose you, do I lose me, I'm tryna say that I miss you
Oh, I miss you

But you would always say
As long as the heart remembers
As long as the seasons change
Driving on your longest journey
I'll ride up front with you
I'll ride up front with you

I'll ride up front with you, I'll ride up front with you
I'll ride up front with you, I'll ride up front with you
And as the heart remembers
And as the seasons change
And on your longest journeys
I'll ride up front with you
And as the heart remembers
And as the seasons change
And on your longest journeys
I'll ride up front with you
