

Still Cool

BEKA

I can't shake this feeling things ain't right
Think I'm overthinking all the time
I can see those things you try to hide
Secrets that you keep behind your eyes

Said I'd be there whenever
I meant what I said, I meant what I said
What I said is forever
For the worse or for better
Don't have to get it together
I meant what I said, I meant what I said
What I said is forever
Whatever the weather

Yeah, you and me, we're still cool
No matter what, I got you
Yeah, you and me, we're still cool
No matter what, it's you

I know you think it's hard for me to stay
If I could I'd take away your pain
Everything about you, I'm in
Don't hide your hurting
I don't want you any other way

Said I'd be there whenever
I meant what I said, I meant what I said
What I said is forever
For the worse or for better
Don't have to get it together
I meant what I said, I meant what I said
What I said is forever
Whatever the weather

Yeah, you and me, we're still cool
No matter what, I got you
Yeah, you and me, we're still cool
No matter what, it's you
No matter what, it's you
No matter what it's you
No matter what it's you

I feel like we've been waiting for those blue skies
So, we gon' keep on looking high
Don't worry 'bout a thing 'cause we gon' be fine
So, we gon' keep on looking high

Yeah, you and me, we're still cool
No matter what, I got you
Yeah, you and me, we're still cool
No matter what, it's you
No matter what, it's you
