

## Too Close

BEKA

Kept every pinky promise like I said I would do  
Listened to all your heartbreaks and chased all your rainbows with you

Ooh

But recently it's felt like every pot of gold we find

Ooh

Ends up just chocolate pennies melting in our hand

All of your fears and all of my faults

Didn't stop us being a work of art

I would do anything for you

Riding around, no bandage on hearts

Fall off our wagon, crawl back to the start

I'd have done anything for you

But, but

I just got too close, I just got too close to you

I just got too close, I just got too close to you

I just got too close, I just got too close to you

I just got too close, I just got too close to you

It's like I'd opened up the door, to you stood serving our usual brand of old lady vogue, kind of Chanel

But then you took off your mask and started serving a grungey, knife cutting words kind of Villanelle

All of your fears and all of my faults

Didn't stop us being a work of art

I would do anything for you (I would do anything for you)

Riding around, no bandage on hearts

Fall off our wagon, crawl back to the start

I'd have done anything for you

But, but

I just got too close, I just got too close to you

I just got too close, I just got too close to you

I just got too close, I just got too close to you

I just got too close, I just got too close to you

Ooh, ooh, ooh, ooh, ooh

Ooh, ooh, ooh, ooh, ooh

I just got too close, I just got too close to you (I just got too close)

I just got too close, I just got too close to you

I just got too close, I just got too close to you (I just got too close)

I just got too close, I just got too close to you
