

Wire Crossed

BEKA

Remember on that day I had my first kiss
You lied and said you know I'll keep your secrets

I think we got a wire crossed
In fact I'm positive about it
Double negative loss
We're at a classic power outage

It's like I'm stood up to my knees but drowning
And you're just stood there dangling a life jacket
Suddenly you're asking why our lights are off

I think we got a wire crossed
In fact I'm positive about it
Double negative loss
We're at a classic power outage

I think we got a wire crossed
In fact I'm positive about it
Double negative loss
We're at a classic power outage

I know I'm positive about it
I think we got a wire crossed
We got those wires crossed
