

## Entanglement

Believer

Finding my way through this maze  
It's all about time, all about pain  
There's light but no warmth  
A face with no name  
Awake to find it's all the same

Perceptions blur  
I've made it rain again

Staring at the wall  
It's 4:44  
Focused as the water falls  
The voices come and voices go  
The puppets laugh, as madness grows

Perceptions blur  
I've made it rain again  
Emotions burn  
Distorting truth within
