Believer

Cipher and play  
For all that will be  
Pour from this bowl  
To set death free

Is it worth fighting for  
Is this worth dying for  
Clouded with uncertainty  
This calculation is killing me

Hidden from view  
Mind to find doom  
Are you there  
I am coming soon

Is it worth fighting for  
Is this worth dying for  
Clouded with uncertainty  
This calculation is killing me

Days and nights are gone  
Seven years of shame  
Melted tongues appear  
What's there to fear

Is it worth fighting for  
Is this worth dying for  
Clouded with uncertainty  
This calculation is killing me
