Cipher and play
For all that will be
Pour from this bowl
To set death free

Is it worth fighting for
Is this worth dying for
Clouded with uncertainty
This calculation is killing me

Hidden from view Mind to find doom Are you there I am coming soon

Is it worth fighting for
Is this worth dying for
Clouded with uncertainty
This calculation is killing me

Days and nights are gone Seven years of shame Melted tongues appear What's there to fear

Is it worth fighting for
Is this worth dying for
Clouded with uncertainty
This calculation is killing me
