

# Loneliness Game

Belinda Carlisle

She could have anything  
But still she's down  
The happiness that means everything  
Is not around  
On the outside  
It looks like a perfect world  
Inside I know what you're thinking  
She's too pretty to be sad  
She's too rich to cry  
She's no different  
She's just the same  
No one's left out of this loneliness game  
She can't find her way out of the loneliness game  
No she can't find love  
Pearls don't mean a thing  
When love's not there  
No gold or diamond rings  
Can stop the tears  
From the outside  
You couldn't feel her pain  
Inside I know what you're thinking  
She's too pretty to be sad  
She's too rich to cry  
She's no different  
She's just the same  
No one's left out of this loneliness game  
She can't find her way out of the loneliness game  
No she can't find love  
In the loneliness game, the loneliness game  
She lies awake at night  
Alone in silence  
She reaches for the light  
And waits for guidance  
She's too pretty to be sad  
She's too rich to cry  
She's no different, she's just the same  
No one's left out of this loneliness game  
She can't find her way out of this loneliness game  
No she can't buy love  
In the loneliness game, the loneliness game...
