

# Valentine

Belinda Carlisle

I made a rule about you  
I made a plan  
For getting my feet back on the ground  
Bury my face in clouds  
For hours on end  
But time only flies when you're around

It was cold and dark, the last time I saw you  
Your hair was long and falling in your eyes  
You said my hands were warm and that I was special  
to you

Valentine  
You know that I'm  
Fighting this love in vain  
The sun's been shining for a week  
But it just feels like rain

Valentine  
I know that you're not mine  
You're somebody else's flame  
But when those hearts and flowers fade  
Oh my darlin' look my way (yeah...)

You say it's complicated  
But baby you're wrong  
There's nothing more obvious to me  
(That) we're on a trip together  
33.000 light years long  
and I'm, I'm hurting so bad 'cause you don't see  
The night you walked me home I gave you a picture  
Of Eden's trees falling to the ground  
And now I feel  
I feel like your perfect stranger  
Without You

Valentine  
You know that I'm  
Fighting for this love in vain  
The sun's been shining for a week  
But it just feels like rain  
Valentine  
I know you're not mine  
And I don't know why you stay  
But when those hearts and flowers fade  
Oh my darlin' look my way (yeah...)
