

Windows of the World

Belinda Carlisle

Just like a rose without a thorn
Defenses fade, we've come undone
Desire, the answer for harmony
This moment together
We can see

Deep into the night
We're looking through the windows of the world
Underneath the sky
We're opening the windows of the world

We stay afloat on this sea of storms
The tides of time carry us along
Beginning and ending with what we know
Surrender emotions
Here we go

Deep into the night
We're looking through the windows of the world
Underneath the sky
We're opening the windows of the world

Beginning and ending with what we know
Surrender emotions
Here we go

Deep into the night
We're looking through the windows of the world
Underneath the sky
We're opening the windows of the world
