

AS FIRE

Bella Morte

War

The battle rages on
Silent and still
The soldiers marching in

And it's there in your eyes
Something born of this fight to live

And I'm here at your side
The way we were burns inside as fire
Finding light in the sky
Is growing harder as darkness fills your eyes

Love

I'll never leave your side
Two fight as one
From dawn into the night

And it's there in your eyes
Something born of this fight to live

And I'm here at your side
The way we were burns inside as fire
Finding light in the sky
Is growing harder as darkness fills your eyes

And I'm not broken, I'm the same as ever
What's left unspoken will remain forever

And I'm here at your side
The way we were burns inside as fire
Finding light in the sky
Is growing harder as darkness fills your eyes

And I'm here at your side
The way we were burns inside as fire
Finding light in the sky
Is growing harder as darkness fills your eyes
