

# On The Edge

Bella Morte

I can't breath this air, I am lost within myself  
I felt the chill of doubt, And nothing's ever been the same  
With just one last wish, This time will not ever fade  
With just one last wish, My life matters once again

I am on the edge  
Waiting for this night to end  
I am on the edge again

I am letting go, My grip loosens by the day  
In my solitude, My eyes open for the fall  
I won't mourn this life, Just those that I've left behind  
I won't mourn this life, As I cross the final line

I am on the edge  
Waiting for this night to end  
I am on the edge again

Someting breaks inside of me  
Something wicked, rise  
Screams lift into the air louder still  
Purge the demons from my mind  
I try to hold this time  
As my memories fade away  
I'm on the verge of destruction  
As reason falls under I am on the edge

I am on the edge  
Waiting for this night to end  
I am on the edge again
