

Hell & Never Back

Bellah Mae

Never left your side, it was a rough ride
But no, I never faltered
Kept it real tight, I played so nice
While you were a monster
You tear me down, cut it off no mercy
That's what you do
And only you would know the words that would hurt me
'Til I think it's true

How many times can the same heart break
Over the same somebody who did it
How many times can I walk away
'Til there's a time that I don't forgive him
So painful
Treat you like a little pure angel
I was so goddamn faithful
Would've stayed when I shouldn't have
Took me to hell and never back

My daddy's devastated, he fucking hated
Everything about you
Spend a life waiting for you to change and
I'm stuck in a hell loop
Sold me the dream like a pretty possession
Made me believe I was headed to heaven
Fell on my knees when I thought that you meant it
No

How many times can the same heart break
Over the same somebody who did it
How many times can I walk away
'Til there's a time that I don't forgive him
So painful
Treat you like a little pure angel
I was so goddamn faithful
Would've stayed when I shouldn't have
Took me to hell and never back

You ran me dry, I got nothing left to lose
And only I would run right back to you

How many times can the same heart break
Over the same somebody who did it
How many times can I walk away
'Til there's a time that I don't forgive him
So painful
Treat you like a little pure angel
I was so goddamn faithful
Would've stayed when I shouldn't have
Took me to hell and never back
Took me to hell and never back

Took me to hell and never back
