

Cause U Can

Bellah

Just because you said so
I won't do it 'cause you said so
If you tell me hold on, I'll let go
Body weak but my head strong
I've got problems with authority
Tryna keep me grounded, fuck gravity
Sorry I can't fit in your schedule
But I've got plans of my very own

We're so, so far gone
Don't know right, right from wrong
And we can't call it love
If it's conditional, oh

Understand
Don't hurt me 'cause you can
And I know you know it's hard
That we've been dealt these cards
Either way, we better work like night and day
Why can't you understand?
You can't hurt me 'cause you can

You like control
I like what's best for me
Hate it when I say no
You get no sympathy
What's mine is mine, it's not ours
I'm not sharing a thing
You throw a fit and now I'm
I'm the one suffering

We're so, so far gone (Oh-oh)
Don't know right, right from wrong
And we can't call it love
If it's conditional, oh

Understand
Don't hurt me 'cause you can
And I know you know it's hard
That we've been dealt these cards
Either way, we better work like night and day
Why can't you understand?
You can't hurt me 'cause you can, no way
Just because you could, oh
Don't mean that you should
Just because you could
Don't mean that you should
Either way, we better work like night and day
Why can't you understand?
You can't hurt me 'cause you can

Oh, I won't hold my breath
For an apology
You're so used to it
Doing the most
You're so used to it
Ruin and go

Go

Understand

Don't hurt me 'cause you can ('Cause you can)
And I know you know it's hard
That we've been dealt these cards (Dealt these cards)
Either way, we better work like night and day
Why can't you understand? (Understand, oh)
You can't hurt me 'cause you can, no way
Just because you could, oh (Because you could)
Don't mean that you should
Just because you could (Because you could)
Don't mean that you should
Either way, we better work like night and day
Why can't you understand?
You can't hurt me 'cause you can, oh

Just because you could, oh
Don't mean that you should
Just because you could
Don't mean that you should
