

Good Thing

Bellah

Let's take a breather
Can't say where we're going and you don't know either
Foot on the breaks, don't wanna seem eager
Let's try not to ruin a good thing
I vote to remain
'Cause I don't like change, why can't we stay the same?
You're way too excited, you went to the deep end
And you never asked if I could swim

I know your love language is words of affirmation
And I ain't got the skills for that
But I'll take a bullet for you with no hesitation, I admit
Truth is I'm scared 'cause what we got here
Is heaven on earth, you're what I prayed for
So don't let me down and I'll let you in

Let's not ruin a good thing
Let's not ruin a good thing
Let's not ruin a good thing
Let's not ruin a good thing

Hope I'm making it clear and I'm not misunderstood
They said it's impossible to find what I found deep inside of you
So I'm walking with caution, maybe too damn slow
'Cause losing you ain't an option if you didn't know
You love me and all my crazy
I'll be damned if someone takes this

I know your love language is words of affirmation
And I ain't got the skills for that
But I'll take a bullet for you with no hesitation, I admit
Truth is I'm scared 'cause what we got here
Is heaven on earth, you're what I prayed for
So don't let me down and I'll let you in

Let's not ruin a good thing
Let's not ruin a good thing
Let's not ruin a good thing
Let's not ruin a good thing
