

## Lost Ones

Bellah

Uh, oh, where the Henny?  
Keep pouring, we ain't finished, yeah  
If I had it my way (If I had it my way)  
I'd ask for Armageddon today, oh, no  
(If I had it my way)  
(Oh, oh)

I've been tryna keep my head above the water  
The freedom of mine is becoming more impossible  
And these chains ain't golden  
These were not sold to me, yeah  
These were not sold to me

Show me where we're going  
The thought of being saved to me is foreign  
I've seen more corpses than a vulture  
Seen so many men fall, now it's culture  
Just take a look at what we've done  
Just take a look at what we've done  
I'd be lying if I said that I knew peace

So take a look around and tell me right now who's fighting for you?  
Take a look around and tell me right now who's fighting for true?  
And we don't wanna face it, but now the concrete's wasted  
Because we keep on pouring, we're pouring 'til the bottle's done  
Hope for the lost ones

There's no ways for the wicked and that's the truth  
We wanna win, but there's evil in higher places  
And when we get there, please tell me what we gon' do  
We lost our souls just so that we can win the race  
(Oh) A losing game  
(Oh) A losing game  
But that's through hell and I won and now, we not the same  
And everyone's for themself  
No-one's inspiring change  
I never thought I'd pray for Judgment Day, yeah

Show me where we're going
