

Prototype

Bellah

Sons of Sonix

I gotta upgrade now you claimin' that I've gone Hollywood?
How you figure that I switched up it was so obvious
Obvious
Little girl that you knew she can't be recognised
Buggin' out but you don't get mad at butterflies, yeah

I'm winnin'
I'm livin'
Get with it (Even though)
On the outside there's
No difference
Been workin'
On me

You fell in love with the prototype
Type, type, type
You fell in love with the prototype
Type, type, type (Oh)
I know you think I did you wrong
But the old me that you knew was dead and gone
You fell in love with the prototype
Type, type, type (Type)

New drop (Drop), new season (Season)
You still blow my line up for the re-up
If love was currency there ain't no refunds
Need to find yourself a new plug
Off-limits

No visits
No snippets
Get with it (Even though)
On the outside there's
No difference
Been workin'
On me

You fell in love with the prototype
Type, type, type (Yeah)
You fell in love with the prototype
Type, type, type (You think I)
I know you think I did you wrong
But the old me that you knew was dead and gone
You fell in love with the prototype
Type, type, type

Prototype
Type, type, type
Prototype
Type, type, type
I know you think I did you wrong
