

Supernova

Bellah

Right out the frame
Picture of love
You're better than
More than enough, yeah
And the lights don't seem to shine
As bright as you do
No, the lights don't seem to shine
As bright as you do, oh

Gold, but you never
Give yourself credit
You don't understand
But I want you to get it
The sun shines extra hard
Impressing you
So how can I think
Any less of you

Whenever the stars are making wishes
Oh, they wishin' on you
I'm puttin' my bets on you
It's fire, too
A supernova
'Cause the lights don't seem to shine
As bright as you do, no, no
No, the lights don't seem to shine
As bright as you do

You know the pressure (Pressure)
It takes to make diamonds and pearls
So don't let up (Let up)
I love the way you carry your weight
In every mess you make
It's beautiful
So much more than you'll never know
And the lights don't seem to shine
As bright next to you

Gold, but you always
Try to repress it
You're more than a man
And I want you to get it
The sun shines extra hard
Impressing you
So how can I think
Any less of you
Than the best of you

Whenever the stars are making wishes
Oh, they wishin' on you
I'm puttin' my bets on you
It's fire, too
A supernova
'Cause the lights don't seem to shine
As bright as you do, no, no
No, the lights don't seem to shine
As bright as you do
