

Anyway I Can

Bellamy Brothers

took a look around, it's time to shake this town;
it's bringin' me so down, hey, yeah, I'm on my way;
So tired of people's greed and how they make you bleed,
when they got all they need but tell me, "Boy, you gonna
pay."

Cuttin' loose, slippin' from the noose;
loud and proud, dancin' on a cloud.
If there ever was a time, that time is now.
Gonna do it, anyway I can;
gonna make it or break it, anyway I can,
gonna take it, anyway I can;
It's my life in my hand, I hope ya understand.

A friend told me today, if it keeps on this way,
he's gonna make a play, and do the Big Goodbye.
Seems everywhere I look, the takin's all been took,
and then someone writes a book tellin' me
it's gonna be alright.

So naive, I really can't conceive,
how people lie, just waitin' 'round to die,
lookin' up for answers from the sky.
